PROFESSIONAL OVERVIEW

Results driven Full Stack Developer with proven experience building modern, scalable web applications using React, Node.js, and Laravel. Skilled in developing end to end solutions that combine robust backend architecture with intuitive, user focused and responsive frontend experiences. Committed to continuous learning and delivering high quality software solutions that solve complex problems efficiently and effectively.

WORK EXPERIENCE

Freelance Full Stack Developer (2023–2026)

Currently, I work as a Freelance Full Stack Developer, developing web apps, APIs, and optimizing client's apps for performance and SEO.

- Designed and developed responsive, mobile first websites using modern technologies like HTML5, CSS3, JavaScript, React, and Node.js.
- Built secure RESTful APIs and integrated third party services such as payment gateways and authentication systems.
- Managed databases including MySQL and MongoDB, ensuring data integrity and optimized query performance.
- Collaborated directly with clients to gather requirements, provide technical consultation, and deliver projects on time with high-quality standards.

WordPress Developer at Techlinu (2020-2022)

I worked as a WordPress Developer at Techlinu.

- Building and customizing client websites using themes and plugins.
- Worked with tools like Elementor, WooCommerce, and SEO plugins, and handled website maintenance.
